Get meetings off to a great start! Icebreakers are a great way to warm up to large groups, encourage shy individuals to participate more fully, add color to boring staff meetings, and bring together people who are complete strangers. In fact, icebreakers are effective in just about any group situation. The trick is in knowing which ones are best for a given situation. That's where this book can help. It contains 65 proven and effective icebreakers that participants will enjoy and respond to, while at the same time matching each activity to the appropriate occassion. Discover stimulating ways to: generate interest in a presentation or training topic; inject enthusiasm into sales meetings; bring cohesiveness and a shared sense of purpose to large groups; break down barriers between strangers; re-energize groups on the brink of boredom; stimulate creative team thinking.

No matter what the challenge or how tough the audience, this book will enable you to create the atmosphere you need to get the job done!

Save your money...google online for better icebreakers.

i was hoping to be able to use it with high school students and there were some appropriate for that instance but It seems very good for business gatherings.

I can always find something for social events, my classes, and seminars to keep people on their toes and get them interacting with one another.

Used in small group therapy starter, great book

Great when searching for perfect icebreakers during training

This is a great book that will give you ideas on how to incorporate fun ice breakers and fun activities into your next training session. After 10 years of training, I am happy to have found this helpful tool to get groups thinking outside of the box, networking together and having a great time. There are so many ways to learn, remember to include them all in your next training which include auditory, visual and kinesthetic approaches.Cheers!

Not much new here.

Great book for fun ways to get to know one another and there are icebreakers for both small and large groups.
