"I left the cinema to the sound of a child announcing; " That was the best movie ever!"- The Guardian

Titan Comics

BANANA! This is cute, if you are a minion fan.. It is a little bit different because there is not much writing , it is all pictures and some are hard to understand. However, if you love the minions you will like looking at this.

My daughter (5 years old) loves Minions. I purchased this mainly for her to enjoy looking at pictures and to learn about how one reads comic strips. She has been enjoying it quite a bit as we read this

together. The overall book is of a high quality. The illustrations are top notch and the stories are cute. I was really impressed with how well the illustrators did in terms of telling the story. There is not much dialogue (of course, they're minions!) beyond a few sounds which the minions make to convey an emotion. I know that as a kid, I would have loved to have had this book. There are so many small details in the drawings which I always enjoyed exploring.

It's basically a bunch of individual (1 page max) strips about minions in slapstick situations. If you like Minions and short slapstick comics, you'll love the book. The creators of Minions were involved in the process so it definitely has the feel of the Minions. Really enjoyed this!

Cute book but I was expecting more of a story than just pictures.

Mostly comic "concepts" vs. many words. Perfect for my 6 year old son who is at a learning stage where "concepts" are growing in him. Also gives him a refresher from all his actual "reading".

Such a cute book, and perfect for my six year old who loves books but isn't quite a fluent reader enough for a worded book with this much detail. He can spend hours looking at this, and loves to come show me all the new things he noticed each time, or to come up with his own commentary for the book. We bought the second one as well, after being so thrilled with this one.

Lots of graphic so it is fun but not much writing

Kept my 6 year olds entertained- they enjoyed it. I'd recommend it for a child that's not yet a reader but wants a book to flip through and connect with
