Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I hadn't been playing the tuba very long at the time i bought this book (for about a year) but i thought them on the simpler side, perhaps advanced beginner? Obviously, even the simplest scales can be used to improve, and these songs were definitely good songs, but i expected to be technically challenged more than i was.

I guess I'll never be a musician. It seems to me that a book of TUBA solos should have the TUBA part emphasized, not minimized to half the size of the unmentioned piano sheet music. This is a

book of PIANO solos, with some tuba tacked on as an afterthought.

Son like it
