Customer Reviews

Many people cast judgment on races and colors of people. I want to know more about who they are, their religion, their customs. I find this fascinating. I read comments that this is not always the correct translation but, I am sure the Christian Bible is the same way. it's fine for me.

The print is okay but I would have liked the introduction a little larger because the beginning is such a wonderful piece of history. The Holy Quran itself is good.

Book is written in plain English. Easy to read.

Probably hands down the BEST English translation of the Quran in modern English Mashallah!

Mr. Emerick takes the time to not only translate the text into modern english but to also provide a historical background information so that the reader has a context in which to understand the revalations. Too often the Qur'an is taken out of context and used to promote the agenda of the person quoting the information (whether it be pro or con). This book should help provide a truer understanding of the Qur'an and the context of the guidance it provided and continues to provide.

Thank you

It is a good read and has good additions to make things clear that might otherwise be lost in translation.

Very fluid English keeping in mind how to best present the meanings to the western mind and very beneficial notes!
