This book is like a drug - I find myself going back to look at it again and again. The knives are absolutely gorgeous, and I enjoyed the profiles on the craftsmen who created them.

It inspired me to start my own blacksmith shop, along with a few other books, for the prices you can get this book, it has incredible artwork along with a contact list for all of the artists, emails, phone numbers, etc. They welcome questions as this is a fairly rare craft nowadays.

I have been involved in knives for years and believe this is the best knife book I have ever owned. Quality book. It is so nice I have it on my coffee table. If you dream, you can dream big with this book. I do recommend it.

Many good pictures of many different types of knives. I discovered a lot of types of knives that were

great looking, that I had never seen turned into art.

As my previous review on the similar book of the same author (Custom Folding Knives, by David Darom), this books keeps up with the standard. An excellent value for money and a must have book for serious knives collectors. Very nice pictures, bios of knife makers, articles. A cood balance between pictures and text.

Great book!

Spectacular

I have three of David Darom's books, all of them are filled with superb examples of the craft of knifemaking. Love them.
