The Ancient 360 Day Year: What It Was... How It Changed

Synopsis

Ancient peoples of the world kept a calendar having 360 days in a year and 12 months of 30 days. So what happened? Why did it change? Scientists can provide no reasonable explanation of why they kept a different year than we keep now. The answer to one of the greatest mysteries of all time has been hidden in the Bible, waiting to be discovered. Only God can change the length of a year by 5

Book Information

Paperback: 144 pages

Publisher: Advantage Media Group (September 1, 2006)

Customer Reviews

Very detailed explanation of how the calendars (days in the year) changed around the time of King Hezekiah. And math equations that might help prove his theory, but beyond my understanding. Still the best book I've found on the subject of the 360 day year calendar and theory of how or why it changed to current 365 1/4 days (also the Moon / Lunar month being 30 days, and now a little less). No crazy theories about planet Mars or Planet X or Y. Just a possible Divine alteration in the location of the Sun, and the resulting changes to the orbit of the Planets, and our Moon.

Wong provides very good coverage of this topic, mathematically and textually, although some of his wording in a few places left me confounded. What I found particularly intriguing was the documentation on ancient civilizations around the world having a 360 day calendar, and not just the ancient Hebrews.

I was disappointed in this book. I love math but you have to have an advanced degree to get into

this book. It's more of a textbook than a book for the layman.
