FieldWorking: Reading And Writing Research

Synopsis

FieldWorking, Bonnie Stone Sunstein and Elizabeth Chiseri-Strater's acclaimed textbook, is an engaging guide to the fundamentals of ethnographic study, complete with practical help for research and writing. Emphasizing civic responsibility and community engagement, FieldWorking incorporates examples by professional writers such as Mark Singer, Pico Iyer, Joan Didion, and Jamaica Kincaid, as well as student research projects on topics as diverse as a local truck stop, dinner clubs, blogging, and a horse sales barn, to help students identify and define their own subcultures and communities. Because students are connected to their research, FieldWorking's ethnographic approach makes projects fascinating and empowering for all students as they learn to observe, listen, interpret, analyze, and write about the people and artifacts around them.

Book Information

Paperback: 544 pages

Publisher: Bedford/St. Martin's; Third Edition edition (September 19, 2006)

Language: English

Customer Reviews

Designed to fill the gap between reading about the process of fieldwork and actually engaging in the process and "writing up" the results, this innovative text presents specific methods and models -- and offers hands-on practice -- for carrying out all phases of field-based research. In considering the research process, FieldWorking addresses the reading, writing, listening, and speaking techniques and strategies necessary for understanding, interpreting, and presenting the lives and surroundings of others through their eyes -- not just one's own. --This text refers to an out of print or unavailable edition of this title.

Key Benefit: Designed to fill the gap between reading about the process of fieldwork and actually engaging in the process and writing up the results. Key Topics: This innovative book presents specific methods and models and offers hands-on practice for carrying out all phases of field-based research. In considering the research process, FieldWorking addresses the reading, writing, listening, and speaking techniques and strategies necessary for understanding, interpreting, and presenting the lives and surroundings of others through their eyes not just one's own. --This text refers to an out of print or unavailable edition of this title.

The book was used and understanding was that purchasing a new book. Nonetheless, it is doing the job

This arrived just as described. Just what I needed.

Fast Shipping and everything as described!

I am NOT a textbook reader. I read way too slowly to be able to keep up, and lose interest (and therefore focus) on boring material. I always try again at the beginning of each new semester, though. Within just a few pages, I picked up a notebook and have been taking notes on every chapter since! Very easy to read, lots of student-paper examples and quick activities to help you think in the researcher mindset. Highly recommend it!

the content of this book is ridiculously dry. I mean, I could not fully get through a single chapter in this book because I could not stay awake and my quiz grades in class definitely reflected that. Some of the stories in the book used as examples were fun to read sometimes, but then the author would dissect that piece by piece to point that I just wanted to throw the book away from me...

This was a required textbook by my instructor but we only read one little chapter in the entire book during the whole semester!

I ordered this book for my son for his college classes. The book arrived on time and in perfect condition

Thanks a lot. Really, the book looks like a new. In the first glance, I think that he made some thing wrong

and sent a new one. I also appreciate that he sent the book another time on his own.
