Our three year old can now do all of the snapping, buttoning and zipping in this book. Now on to tying a bow and tying his shoes alone. Great learning book.

I thought it was a great early book - being cloth, and not rip able Also help teach the little guy the how to's of getting dressed

completely unusable...too tightly bound. difficult even for an adult

My child is fascinated with moving parts and zippers, so glad to have found a book with one. Too bad it's not in print anymore. Good news was I was able to find a used one easily!

Great

I can barely snap the snaps in this book and the buttons are too hard for little hands. I like the thought because my children love Elmo and Zoe but the Elmo Doll worked better for practice purposes.

Poor quality. Cute thought behind the book, but the worst sesame beginnings book I have bought yet(I have bought 4).

My kids loved this book. They still love to try and zip and snap.
