Illuminatism: The First Testament Of The Illuminati

Synopsis

JOIN THE MILLIONS WHO HAVE DISCOVERED THE LIGHT
Fear not for your war-stricken, poverty-ridden planet: help is on the way. The Illuminati's path for humanity - our Universal Design - has spanned centuries to safeguard the human species from extinction. For the first time in history, the Illuminati has broken its silence with Illuminatism: a testament of this planet's future, wisdom previously available only to elite members, and your life's guide to all that is ahead. Learn of the power that gives authority to kings and queens but lives hidden inside every human. Join the thousands of people from all walks of life who've committed themselves to the betterment of the human species as a whole - Christians, Muslims, Atheists, Hindus, Buddhists, and believers of all kinds. Illuminatism introduces time-tested mental processes that many attribute to increasing wealth, overcoming hardships, and finding happiness. In this book, you will read:
Revelations about the Illuminati's role in history,
Decades-old secrets of power and prosperity,
How to join the Illuminati in the coming age,
Your true purpose in this world.
Humanity's age of War is finally nearing its end. A new dawn awaits to usher in a society where all people in all places can live in Abundance. Fear not for the bursting sounds that echo across your red horizons. We are always watching out for you.

Yes I bought this; I like to read and I kept getting people send me stuff and follow me on Twitter. So, since I like to study religious cultures, I gave this a try. Lots of it is a positive message, but it was the whole, "You aren't a true sentient being without our behind-the-scenes guidance" was unnerving. I don't like being told that if I wasn't part of the higher echelons of a greater scheme, then I never would be. I teach my children that there are ways to make a greater impact in this world, and there are ways to improve your socio-economic standing, but this book walled everything in. That is to say, it made explicit references to the little people that are needed at the bottom, and the movers-and-shakers who make the rules at the top. It gave no "instructions" on how to become one of these movers-and-shakers, it just said you either are, or you're not. Bull. I could actually write more text about why this book bothered me than the actual amount of text contained in the book. It only took a very short time to read it. I read it again, thinking maybe I missed something, but I got disgusted the more I trudged on. Coincidentally, to give this a fair shot, I also signed up for their emails, and "applied" to be part of the organization. I never received anything that said I was "approved" or "denied", but I sure got a lot of emails asking me to buy different fake metal versions of their talisman pendant. Oh, and one congratulating some socialite on her nuptials. I gave it about 8 months for them to complete their 30-60 day review of my application. Then I unsubscribed. Maybe I'm just not worth enough to them to invest in me. *shrugs*

There have been hundreds of reviews so far written about Illuminatism: The First Testament Of The Illuminati. So the following is not a review. The following is an example of only one of the dozens of profound thought processes I experienced when contemplating upon sections of this book - a book I have read through fully twice and have referenced quite a bit when pondering the implications and

possibilities this book suggests. I recently encountered this comment aimed at beings who either produced and/or derive benefit from this book. "Please repent and seek a personal relationship with the true Jesus Christ, the only begotten Son of God." "My response - The following is a quote from Illuminatism: The First Testament of the Illuminati - "When measuring the eternal vastness of the universe, there is a mathematical probability that a being exists that is more intelligent than us, who sees what we do and whose powers we can never understand." If this could be true, then there also could be many beings more intelligent and whose powers, abilities, intentions (if any) could be understood by one or more beings who are far beyond the understanding of most humans on Earth today. If anyone wishes to decide that a being who by sending "his son" to Earth to incarnate and suffer the horrific experience that has been handed to us today relieves anyone of their own personal responsibility as to who they are as determined by their own thoughts (each and every thought all the way down to the depths of their sub conscious), words (written and spoken) and deeds may find themselves forever enslaved to a falsely produced paradigm. I would have to question if "that god" is a god I wish to put my trust and faith into. Instead, perhaps consider there be an Infinite Creative "force" from which "you" (the individual) sprang and that the only difference between what you can do and what this "force" provides for you to do is determined all and only by "you." Then, consider what you might do as to how that impacts the rest of "us." If you are selfish, your destination is eternal solitude. If instead your focus is to benefit us all, perhaps you hold the key to Eternal Life.

This book is a perfect read, it is both intelligent and inspiring. This is a book that helps those seeking true knowledge and guidance. If you are looking to better your understanding of what it truly means to be human then this is the book for you, but if you are looking for surface answers to the meaning of life and how to get rich or famous than perhaps you should choose a different book. I know that this was the perfect book for me, and hopefully it will be for you as well.

This Testament is highly recommended to those who want to further their knowledge on Illuminatism and the world around them! A decent length with chapters, talks about why everyone is important as a whole, what the true value of currency is, why there is need for some freedoms to be given up for the benefit of others and our world, etc. If you want to follow the light, get this book! It is not a religion. Also beware of people who resell the book at a ridiculous price.

For centuries the illuminatti has been there guiding and protecting the human race, averting

catastrophic situations to ensure the human race continues and doesn't become extinct, while through guidance fosters self enrichment to its followers. Allowing each individual to explore within themselves their religious beliefs, their value and to reach their maximum potential, This book is very informative and seeks to openly validate the necessity to continue the support of its existence, A good read whether your intentions are to be a part of it or not. Rest assured that through God and through the Illuminati we are protected.

What an eye opener! I was interested to see if the rumors were true about Satanism and gun control, etc. I was really surprised to find the true meaning of the light and what the Illuminati stand for. I won't reveal the secrets of the book, but it's a breath of fresh air to see that there are real reasons for the group and the way the world is heading is a horrible path that needs to be corrected. I am 100% bought into the program. Equality is a wonderful thing. Not only does this book act as a life guide, but it is a wonderful read. It doesn't matter what your stature in is, this book will guide you to the light.
