It's Bedtime For Little Monkeys

Synopsis

The little monkeys in your home probably prefer playtime to bedtime, but active little ones need a good night's sleep. Charm your board book readers into quickly getting through their nighttime routine so you can read aloud from this fun book with a mannerly message. Children will see from these cute and colorful pages that they aren't the only ones with a bedtime schedule. Reading about how others prepare for sleep will help reinforce your end-of-day routines. These little monkeys will give you a chance to calm things down, cuddle with your kids, and assure them that pleasant dreams are only a story, a prayer, and night-light away. It's Bedtime for Little Monkeys is a great follow-up to Susie Lee Jin's other adorable board book, Good Table Manners for Little Monkeys.

Customer Reviews

"It's Bedtime for Little Monkeys is just delightful! Susie Lee Jin has come up with a wonderful board book: it's fun, kid-friendly, and beautifully executed. I am sure that, in the future, Susie's work is going to be widely recognized for its clever plots and deceptively simple, charming style." It is my pleasure to heartily recommend Susie's new book for all parents with 'little monkeys' at home."

—Jennifer Merz, Children's book writer and illustrator
"The illustrations are bright and cheerful, and quite appealing to little hands. We are more than happy to add her books to our collection. Thank you for sharing Susie with us."

“As she does with her previous books, Susie Lee Jin expertly creates a board book that speaks directly to small children. My daughter might not understand everything yet, but she definitely identifies with the beautiful illustrations of little monkeys doing the same bath and bedtime routine that she does.”

“I can tell you that my wife and I can’t wait for more books by Ms. Jin in the Little Monkeys series. I only hope that the author is able to put another one out in time before my baby grows up and out of board books!”

“Once again Susie Lee Jin has a winner with It’s Bedtime for Little Monkeys. This cute little board book is perfect for small children just getting used to a bedtime routine. I love the little extras in the pictures: a tail curled around a drinking cup, the banana tree nightlight, the little foot hanging out of bed. Children will easily identify with the necessary bedtime preparations and no doubt join in with reading the book as well. Be sure to read Good Table Manners for Little Monkeys also by this author.”

Gloria F. Sutton, Division Manager, Youth Service

“My older daughter is two and a half, and she owns both It’s Bedtime for Little Monkeys and Good Table Manners for Little Monkeys. She loves to have both books read to her frequently. She associates with the activities in the books, and identifies with the characters.”

As a child, Susie Lee Jin scribbled on sidewalks, the walls of the house, and any flat surface that seemed in want of some doodling. After art school, she started her illustration and art licensing company, Susie Studio, specializing in art for kids’ products.

My wife and I were delighted to receive in the mail a copy of It’s Bedtime for Little Monkeys by Ms. Susie Lee Jin. Our own little monkey, our ten month-old daughter, is already an avid follower of Ms. Jin’s books and illustrations. She has two board books by Ms. Jin which she reads happily every day, one of which is Good Table Manners for Little Monkeys, also published by Harvest House. Also, her room is adorned with paintings and illustrations of baby animals and their mothers by Ms. Jin, which we ordered from her own company, Susie Studio. She has literally grown up with Ms. Jin’s artwork.

As she does with her previous books, Susie Lee Jin expertly creates a board book that speaks directly to small children. My daughter might not understand everything yet, but she definitely identifies with the beautiful illustrations of little monkeys doing the same bath and bedtime routine that she does. My daughter loves books - she goes through around 10-15 board books each day, and she has two full shelves of them. However, she manages to remember several quite fondly, and this is definitely one of them. I can tell you that my wife and I can’t wait for more books by

Ms. Jin in the Little Monkeys series. I only hope that the author is able to put another one out in time before my baby grows up and out of board books!Sincerely, Sanjay Vanguri, MD

Super cute

Shipped quickly very cute.

I thought there would be a little more to this book. Nonetheless, they got something right because my 2 year old likes to read this book every night before bed!

This book is perfect for little ones. The book is well made and sturdyAnd the story is so cute. Your little one will ask for this story over and over

I was surprised on the size of this book. It is very small, and my 21 month old daughter, is accustomed to holding/viewing regular sized books. Also, the story is a little too simple. For example, only 8 pages have words which consist of, "First take a warm bath. Then put on pajamas and brush your teeth." The rest of the pages just have pictures. It is like a step-by-step instruction on how to get ready for bed, and I thought it would have more "fluff" to it.

My 1 year old loves with this book and asks to read it at least twice before bed. It covers the basics - brush your teeth, take a bath, read a book, say your prayers (might not want to get this book if that page would bother you), lights out, go to sleep.

Perfect companion book to go with Gundam baby Nicky. Large pictures that can catch a baby's attention.
