Customer Reviews

I've been using this date book for many years. I like that it gives you plenty of space for each day of the week. It's hard to find this style of planner that is not for students.

Best student planner

Best weekly planner on the market. I've been purchasing this item for years and love it.

Best planner ever!

I love this planner! Here's why:1) August-August, genius2) Vertical columns for M-F, perfect for the way the brain thinks about the week3) No time schedule, I hate when planners have these, it makes me more stressed bc i feel i need to plan every hour of my day4) Simplicity, each day is sectioned by "Assignments & Meetings" aka things to do "Study Schedule" aka when you're going to do these things "Extracurricular" aka work/clubs/family responsibilitiesAgain perfect for students with multiple

things going on. It helps the brain separate responsibilities and think through the things you need to do. If NYPL made one with the EXACT layout with a more professional cover on the outside I'd pay so much money for that

Have used it since 2005. Cannot imagine planning without it. The size and the layout are perfect for my needs (clinician).

One of the best inexpensive daily planners out there. Last year I was late in the game and the product went out of stock but this year I made sure to pre-order to save me from buying expensive and over-rated Moleskine planners.

I like it - yes i do. Seems thinner than the 2016/7 Version, which is great
