Cannot say enough about this book! I read it cover to cover and learned a ton. My son was interested but not up for fighting me for it. JK. I got it at the library but might buy a used one because it is so good! The information is really easy to comprehend and the topics are definitely kid-oriented and fun. They are varied as well - not just your typical survival stuff but entertainment and fun facts, etc. Great illustrations as well. I think I finally get how to use a compass now! I would say this would be best for kids in the range of 8 to 12 but not necessarily limited to that range. It's neither juvenile nor mature. Fantastic!

I purchased 11 of these for our Tiger cubscouts and they were all thrilled to receive them from our outgoing Webelo 2s. All the other level scouts in our Pack wished they could have a copy, too.

This lady knows kids. One of her other books BIG SCIENCE FOR LITTLE PEOPLE is as much fun or more

Fun book to have at camp, in your trailer, or at the cabin. Lots of tips, songs, games etc. the keep the grandkids engaged! I bought it for my 11 year old granddaughter. I should have purchased one for me to keep at the cabin! PamT

My son rented this book at his school library and couldn't put it down. I purchased it at a great price and he loves it. We will be taking it with us camping and there are so many fun things and very helpful information in this book!

Lots of good information for kids, but maybe more camp songs and easy "fun" activities is what I was looking for. I ended up reading it more than my kids did, but then maybe they were a bit too young (8 and 6).

This book is so fun! I have three sons (10, 12 & 15), and they all found so much to do while we were camping! The instructions are very detailed and easy to follow! I recommend this book to anyone that is camping with children!

I would definitely recommend this book- the ultimate boyscout book-packed full of information and fun activities- one of the best books I have bought my son
