Best Sellers Rank: #91,903 in Books (See Top 100 in Books) #83 in [Books > Business & Money > Accounting > Managerial](#) #353 in [Books > Textbooks > Business & Finance > Accounting](#)

Customer Reviews

Excellent condition. The access card package is not included.

Did not come with access code so do not advertise that it comes with My Accounting lab. Complete waste of money

The book and code were as advertised, in perfect condition. The text is written in a way that makes learning the language and terms VERY difficult. Many terms were never defined. My 201 and 202 classes through Pearson My Accounting Lab were well organized, with definitions in the outer columns. In this text, when shifting from doing homework to the dynamic study modules, terms used were completely different than what was in the text (an example would be in Homework and class the word:allocated was used, in DSM the word: applied was used instead). I may be working on an accounting degree, but am an appreciator of the English language and clear communication, as well. I always kept the glossary separate and handy for reference, and some of the terms used in the text and online weren't even listed in the glossary or index. Trying to figure out what the authors were trying to say took up an inordinate amount of study time, and much of the work was made to be much more complicated than necessary. I was not the only student in my class who had difficulty with the text, and I am an A student.

Product did not come as advertised. There was no access code combined with it. Do not fall for this false advertising. Wasted my money and my time.

False description was given when I purchased book. Book didn't come with access code.

Didn't come with the online access as advertised. Don't buy

I did not get the access code.

Exactly what I needed for class and it came with the access card just as described :)

Fast shipping, item as promised. Would do business again! Thanks
