Customer Reviews

How to find and Fix-up and Old Fiberglass Speedboat., a Low cost salternative for the powerboater on a budget.

good general overview and tips, but book was published before the internet go to Utube for more detailed info on boat renovation

good basic book for guidance

Good guide for beginner!!

This book is the ultimate source of information for the do-it-yourself fiberglass boat restorer. The time, money and effort saved by following Jim Anderson's advice makes this an absolute bargain. By using this as a guide for my own restoration project, I now have a boat that is unique in appearance (1964 Glastron Starflite Deville) yet it is stronger in construction than it was new. But the best part is that I was able to do it all for less than \$1,000...a fraction of the cost of a new boat! This \$16.95 investment is a no-brainer.
