I am new to the world of wool applique but loving every minute that I get a chance to work on my first project. And now I'm even more motivated to finish it, so that I can make something from Debbie Busby's new book *Sew Many Notions*. The projects and photos in the book are just as gorgeous as the book cover. There is a great introduction to wool applique and embroidery in the book, which makes this book excellent for the beginner and more experienced alike. The instructions are thorough and well written, with great diagrams and tips along the way. I'm super in love with the Button Wreath Penny Mat and thinking I may have to take some time this week to make a few Simple Tomato Pincushions. With 80 pages and too many projects to count, you definitely get your monies worth with this book!

This book is sew darn cute! Yah, I said it. If you like to make hand stitched projects and decorate with sewing themed items you will want to make everything in this book. I make projects with the

scissor image whenever I can and this book has a great pattern for a pair of scissors. There is also a fun pillow that is button shaped that would look great in all sorts of decor. In addition to the large button pillow there is a cute "button" card project that would be a great way to feature a cherished collection of buttons.

Love it! Lots of great wool projects and even some woven ideas. Really glad I bought this. It's not as "cutesy" as other books and not as dark as some seem to be.

This is an awesome book with wonderful projects. Can't wait to get started.

Fabulous book

Love this book!
