## Customer Reviews

I always highly recommend the E&E, and once again it has done the job perfectly. Clearly written rules, and great practice problems with explanations to understand each step.

Great book. Really compliments the required text book. Examples help to reinforce concepts

detailed explanation and examples

SAVED MY BUTT FOR THIS FINAL.

the examples are good and similar to those you'd get on an exam.

My professor had us read a terrible casebook for class. Eventually, I just moved to this E&E book. Much better.

It's good, the examples were helpful to do because the subject itself requires more practice than reading like with some other classes.

This has been an easy to use supplement.
