# Moving Day (Allie Finkle's Rules For Girls, Book 1)

## Synopsis

#1 New York Times bestselling author Meg Cabot's middle grade debut -- now in paperback! When nine-year-old Allie Finkle's parents announce that they are moving her and her brothers from their suburban split-level into an ancient Victorian in town, Allie's sure her life is over. She's not at all happy about having to give up her pretty pink wall-to-wall carpeting for creaky floorboards and creepy secret passageways-not to mention leaving her modern, state-of-the-art suburban school for a rundown, old-fashioned school just two blocks from her new house.

## Book Information

Age Range: 8 - 12 years

Grade Level: 3 - 7

## Customer Reviews

Starred Review. Signature  
Reviewed by Rachel Vailln Cabot's (the Princess Diaries) first foray into novels for kids who are still in single digits, her trademark frank humor makes for compulsive reading—•as always. The first installment of a new series presents a nine-year-old girl attempting to impose rules for living on her increasingly complex world. Allie is funny, believable and plucky (of course; all girls are plucky, at least in books), but most of all, and most interestingly, Allie is ambivalent. As the book starts, Allie learns that her family is moving across town. It is a mark of Cabot's insight to understand that, to a nine-year-old, a car ride's separation from the world she has

known makes that distance as vast as the universe. Allie will be enrolled in a different elementary school, and will therefore be that most hideous thing: the new kid. To make matters worse, the Finkle family will be moving to a dark, old, creaky Victorian, which, Allie becomes convinced, has a zombie hand in the attic. Moving will mean leaving behind not only her geode collection but also her best friend. And here is where the story deepens. Allie's best friend is difficult. She cries easily and always insists on getting her own way. To keep the peace, Allie makes rules for herself, often after the fact, to teach herself such important friendship truisms as Don't Shove a Spatula Down Your Best Friend's Throat. Mary Kate is the kind of best friend anybody would want to shove a spatula down the throat of, is the thing. As Allie marshals her energies to fight the move in increasingly desperate ways, sophisticated readers may well conclude ahead of Allie that the friends she is meeting at the new school are more fun and better for her than spoiled Mary Kate and the cat-torturer, Brittany Hauser. Coming to this realization on their own, however, is part of the empowering fun. Told from the distinctive perspective of a good-hearted, impulsive, morally centered kid, this is a story that captures the conflicted feelings with which so many seemingly strong nine-year-olds struggle. Ambivalence is uncomfortable. It is also a sign of growing up. Early elementary school is all about primary colors, where rules, imposed by adults, are clear guidelines to good behavior and getting along. The more complex hues of the second half of elementary school, when complicated friendship dynamics begin to outpace the adult-imposed rules of home and school, leave many kids floundering and confused. In the character Allie Finkle, Cabot captures this moment of transition and makes it feel not just real, but also fun, and funny. Rachel Vail's forthcoming novel, *Lucky* (HarperTeen, May), is the start of a trilogy about three sisters. Copyright © Reed Business Information, a division of Reed Elsevier Inc. Grade 3  
At first, nine-year-old Allie Finkle seems rather unlikable. She's hard on her best friend (who is very quick to tears) and acts bratty when her parents tell her the family will be moving. And even though she's promised a kitten, and prefers her new school and the more engaging friend she'll have next door once they move, she's determined to sabotage the event. However, the girl's worries are nuanced and age-appropriate. By the book's end Allie does show a more caring side, even though her methods are not always appreciated by the adults around her. Chapters all begin with one of Allie's rules ("Don't Stick a Spatula Down Your Best Friend's Throat," or "When You Finally Figure Out What the Right Thing to Do Is, You Have to Do It, Even If You Don't Want To") that, while amusing, may quickly become tiresome for some readers. With good

intentions and reckless results, Allie will appeal to children who enjoyed reading about Ramona, Amber Brown, Junie B., and the other feisty girls found in beginning chapter books. This novel proves that the master of young adult popular fare is able to adapt her breezy style for a younger audience. --Tina Zubak, Carnegie Library of Pittsburgh, PA Copyright © Reed Business Information, a division of Reed Elsevier Inc. good

My ten year old Daughter absolutely loves this book. It was her first Meg Cabot book. I bought this because we were planning a move, and since, she's taken out several others of this series from her school library. This book I would highly recommend.

I bought this as a gift to my little cousin to encourage reading and how fun it can be. It came in perfect condition and she loved it.

My 10 year old loved the book and I have ordered two more from the set.

My daughter was so happy to get this book thru we got it quickly thru the mail... And this is a wonderful book ....we are so happy

A fun and energizing novel for your child to read at school and at home. Watch as the young girl handles social problems

I liked this book because it teaches us a lesson and that lesson is you know you have a best friend when they got your back Another lesson is don't judge something by its look because you never know when someone will make a change. Another lesson is always do the right thing because maybe something can turn just right for you.

Just as described - thank you!
