Customer Reviews

Has some basic phrases but the accent and style of speaking are oriented towards Mexican spanish rather than traditional spanish (that which is spoken in Spain).

I'm sure it would have been a good set if one of the discs hadn't been missing

Doesn't work.. Not Clear at All. I hear low an loud ..Going to get my money back..Don't Waist your time.El Stinko!!

Good lessons on CD for the car. Much better program than the cassettes I'd previously purchased. The accent does seem a bit castillian/castillano tho

I have only made it through disc one but it has helped me learn. The first few lessons, I already knew because I have taken a Spanish class in high school but the refresher was nice. I would recommend this cd to anyone strapped for time and wanting to learn on the go. You still need to read and study the written portion because visualizing the word in your mind will help you retain and understand. Make flash cards and find someone fluent to speak what you learn daily.

The course is as expected. Not perfect, but a good value for the money. And since I have a very long commute each day it's nice to put the time to good use. The only lack so far is that there are no 'quiz' type sections so that one can test comprehension and retention in a controlled manner. I don't know if I'll be able to hold my own in the language when this is all done, but I suspect that if not it will be my own fault, not the fault of this product.

I like this product and I like that it comes with a little book of all the lessons. You can carry the little book and see the words as well as listen to them. I put it on my MP3 player and listen to it. It helped with travel in Honduras and Spain.

perfect for my 40 minute walk to work
