Great book, bought copies for several others, it's that good!The values America must find its way back to, what made us great.I didn't know how much of a conservative I was until I read this, this book speaks to me..

Its for my boyfriend...he is die hard conservative (I'm a liberal) but we make it work. I just may read it after him...it just might help me understand him better!Ã Â Â'Â—

The conservatives handbook is a great book full of good knowledge and rhetoric. As someone who falls in the middle of the spectrum between conservative and liberal. I can say that this book makes many good valid arguments and almost all of them I completely agree with. My only complaint would be that you can very much hear Mr. Valentines voice in his writing. He skips some and writes like he talks, it's not bad it's just a little annoying at times. Great book would recommend to anyone looking for the conservative point of view

This is a great source of information, and a really interesting read. I recommend it highly. It should be in the library of anyone looking for an explanation regarding many facets of constitutional thought.

I listen to Phil Valentine as often as possible. I think he is great. I really enjoyed the "Inconsistent Truth book and feel sure I will enjoy this one equally as much.

Great book. Filled with common sense answers. Phil hits it out of the park.

Phil has a great way of illustrating the points and the facts in a manner that is both convincing and palatable.

Got this book as a gift and end up getting for my husband
