Barbarian's Tease: A SciFi Alien Romance (Ice Planet Barbarians Book 16)

Synopsis

It should have been a one-night stand. I never intended to seduce Taushen, but things happened. I don't dwell on the past and while it was great, I'm not looking for a relationship. Of course, try telling that to Taushen. The big blue alien's in love after one night, and it's making things darn awkward. We've got bigger problems than whether or not I'm his woman, like the *Æcargō* of the space ship that landed here. But Taushen's not giving up. He thinks I'm his mate. And he'll do anything to keep me.

So far, there has only been one of these books that I found a little blah, so I will definately be continuing with the series. I like this story, although we keep going back to the "I'm going to steal her away until we resonate" storyline. I was really glad when the original plot steered away from the hating each other thing and ignoring resonance for a month before finally actually talking to each other and realizing that they were on the same page the whole time. Hopefully we won't go back to that with the Gold guy and Veronica. I love these books because they are hilarious. My only

question with this one though is this. The spaceship these new people arrive on. Yeah, I get why they want it gone, I really do. But, why not take advantage of it while you have it. If Mardok knows how to pilot the thing, as least take it on an exploration of the planet trip before you dump it. Who knows, maybe there is a warmer side somewhere? An exploratory mission would have been beneficial in so many ways. Then, dump it when you return. Or, maybe I'm thinking more like an explorer than a romantic, I don't know. I just think it was a shame to waste that opportunity. This community is growing by leaps and bounds and may need to find greener pastures to support them all in the future.

Okay, Ruby you have absolutely outdone yourself this time--truly! This book was so awesome. I am extremely excited about the new characters and the plot twists: I can't wait to see what happens next with the IceHome world! And I don't know what to think about the twins yet...My heart goes out to them and yet I am wary about them too. Can't wait to hear their stories!!! Thank you so much for sharing your imagination with us readers (I think I've said this on Facebook or in a review somewhere already but oh well--I really can't say it enough!)--I get to go on so many mental adventures because of it! Thank you!!!

What a fabulous read! Ms Dixon was in fine form. I absolutely LOVED how well she defined the H/h's 'alien-ness' as seen thru the eyes and via touch of the other. The sex scenes were varied & exciting, not entirely vanilla - not raunchy either, the dialogue was realistic. There was a lot of world exploration & great verbal visuals - which I enjoy. There weren't many action scenes but it was hardly missed due to the interesting action that was present. At the end the new characters were teasingly introduced. I'm looking forward to those stories. If you're a fan of the Ice Planet series, this one is a big plus!

I was wondering how this series was going to continue now that all the girls have mates. Wonder how many new men (an a woman or two) are over on that island lol. Bet they have trees an green things etc. A regular island paradise. Maybe all the original crew didn't die but got lost at sea so to speak. Yep think this series will continue to grow. I don't think it really needed a new series of its own thou...as it could easily just be a lost part of the main tribe, from so long ago post humans.

As usual I really enjoyed it. I like that Ruby puts so much thought into her characters giving you some background and how the couple's grow together. Really excited about the new series

Icehome but still hope she writes more about the Ice Planet Barbarians. If you haven't read this series you need to, but start at the beginning with (Ice Planet Barbarians). Enjoy I did I purchase all of them so I can read them all over again.

This series is going from strength to strength, with tantalising glimpses of what could be coming in the future. Ruby sure knows how to create a world and characters in her stories that dare I say it... resonate with the reader. Great job Ruby.

Book 16 in this series and I think this has been my favorite so far, I say this every time there is a new book I can't wait for the next one. Story tells about Taushen one of the Barbarians and Brooke who is Human and was a hairdresser. This is the tie in of a new series that will loosely be connected to the Ice Planet Barbarian books, as there are now sixteen new women and four new Alien males. Can not wait to read.

Before I get into my review of the story, I just want to say that I LOVE puns. The title is awesome! With Brook being rather flirtatious and a hair dresser. I have been wanting Taushen's story for awhile. I kinda felt like he got overlooked. But Ruby defiantly made it up to him. I loved reading his and Brook's story. Looking forward for what's to come on the little ice planet.
