Lost Denver

Synopsis

Astonishing images of vanished Denver, from old hotels and movie houses to streetcars to sports stadiums There has been much change in Denver since the first settlers built a small town on the south side of Cherry Creek and named it Auraria. Streetcar suburbs emerged and were annexed into the city of Denver; skyscrapers rose and were replaced by even bigger skyscrapers. The streetcars disappeared. Denver's baseball team, the Bears, played out of Broadway Park, then Bears Stadium, which became Mile High Stadium and then a parking lot for Sports Authority Field. The city has lost many of its grand Victorian buildings. The grand Richardsonian Romanesque Denver Club is gone, along with the Tabor Block and Tabor Opera House. The theater district on Curtis Street has been transformed, while the Denver Urban Renewal Authority (DURA) has targeted whole districts for wholesale change. Lost Denver looks at the many aspects of the city that have disappeared over the last 150 years—the old hotels and movie houses, the civic buildings no longer fit for purpose, the old bridges, cemeteries, and parks that have been changed out of all recognition, and the city districts that didn't fit in with the Skyline Renewal Project.

"Meticulously

researched. . . Images of buildings that no longer exist illuminate a side of Baltimore no contemporary visitor to the city could see, as does the lore recounted by the authors." — Publishers Weekly on Lost Baltimore

Amy Zimmer is a historian and writer specializing in Denver's historic architecture. A Colorado native, she sits on the Denver Landmark Preservation Commission and has won several awards for her work in historic preservation. Her previous books include Denver's Capitol Hill Neighborhood and Denver's Historic Homes. Additionally, she works for the Colorado State Library preserving historic state documents. She lives in Denver's Park Hill neighborhood.

Some of these buildings would be priceless today, and with the trend of younger people wanting to live in the city they would have made amazing luxury condos or office suites.

As a fourth-generation Denver native, this book was really fascinating. I bought it for my mom, also a native, for her birthday and she loved seeing the pictures of the old buildings that she remembered as a child.

Very pleased

I enjoyed reading about buildings I had never heard of before. The book would have been even better, though, if it had shown maps of each location, and modern pictures to show what is there now.
