The Elements Of New Testament Greek

Synopsis

Since 1914, C.U.P. has published *The Elements of New Testament Greek*, a best-selling textbook for scholars and students of the Bible. The original work by H.P.V. Nunn was succeeded in 1965 by J.W. Wenham's book of the same title and Jeremy Duff's new edition advances a long-established tradition into the twenty-first century. Lessons are organized so the most important aspects of Greek are learned as well as the most commonly occurring words in the New Testament. Hundreds of examples cover every book of the N.T. and almost every chapter includes a passage to translate from it. A vocabulary audio CD is also available separately.

Customer Reviews

'Duff's book is an outstanding example of bringing forth treasure both old and new. Undoubtedly this will become the first choice textbook for those who are really serious about teaching Greek. This is a timely and much needed resource for those who teach biblical Greek.' Expository Times

Learning Greek is a journey of many steps. In this book every one of these steps is explained clearly, and revised using exercises. Lessons are ordered so the most important aspects of Greek are learnt first and the vocabulary consists of the most commonly occurring words in the New Testament. Hundreds of examples cover every book of the New Testament and there is a passage to translate in almost every chapter. A CD ROM containing additional learning material and a vocabulary audio CD are also available separately to accompany this book.

While there are some confusing passages and some weirdly worded explanations, on the whole the book is quite good. Our class is really getting a lot out of the book.

This is a great book to use for students who are interested in reading the new testament. It is well organized, with clear explanations and very nice exercises.

Great tool for any student of biblical greek... very sensitive to their needs without intimidating them with greek grammar and vocabulary... must have !

This text is an excellent introduction to New Testament Greek for the complete beginner! It is very straightforward in nature and full of helpful examples and exercises! I appreciate the way each new skill is broken down for the reader: it is clear and easy to understand. Would be helpful for someone trying to learn Greek on their own.

A great textbook for the student of New Testament Greek.

An excellent product in terms of simply language yet effective lessons in learning ancient Greek. This package is proving vital for my learning of Biblical Greek.

The title says it all. This book helped me learn NT Greek quite quickly. It isn't perfect, but it's doable and very easy to understand.

In the description of the book, it says "A vocabulary audio CD is also available to accompany this book." What does it mean? sent it to me super fast but there is no CD in the package! Please let me know to whom I should contact over the website?
