Customer Reviews

This "travel guide" must win the top spot for "most misleading travel guide of all time" if ever there is any! To start with, the first hotel recommended, the Hilton Hotel in Lyon, is priced at 150-200 euros a night - for the "budget" traveler?! What is more - this particular hotel has officially been closed since almost 1 year ago from the date of publication! There is no itinerary guide in any form, and no picture, map, transportation route, or any thing of practical use. The author offers no particular information on the use of the Lyon City Card, apart from "free access to public transportation". No wonder every unfortunate reader of this booklet has a strong suspicion that the writer has never

ever travelled to Lyon in person. In summary, this "travel guide" should never be offered for sale.

This guide reads like a high school report. It is basically just a summary of the wikipedia page for Lyon. Very little information, and the writing isn't all that great either. Large font, half empty pages, and no photos. Pages are similar to newspaper material, poor production quality, not something that would stand up to travel, although this wouldn't be good for travel in any case. After reading this book (it took about 5 minutes to read the entire thing) I have serious doubts that the author has ever visited the City of Lyon. I learned nothing from this book other than to be more careful with my purchases.

WARNING: DO NOT ORDER THIS PAMPHLET POSING AS A BOOK! I have written several reviews of other books, but this is the **ONLY** negative review I have ever written. This is the equivalent of 3 or 4 typewritten pages packaged in large print, w-i-d-e margins all around, minimal information. Five minutes of googling "Lyon" will give much much more information than this. I do not recall ever having felt so ripped off. This is a disgrace. **DO NOT BUY THIS!**

THIS "GUIDE" WAS COMPLETELY USELESS. NO MAPS, NO ARRIVAL INFORMATION, POOR DESCRIPTORS. DON'T WASTE YOUR MONEY.

I feel so embarrassed for having wasted my money on this. It's a combination of poor translations with many duplications -- I don't believe that there is a real Jason Russell who even collated or translated this, it's so poor. No one else should think of wasting their money on this. Why does carry this when it is of almost negative value?

Poorly written. Little value. Not sure why it is available on . Give this a pass and consider another book.
