Paris is 11 years old and lives near San Francisco, CA. She has 3 additional travel titles coming out 'Paris Goes to France', 'Paris Goes to Italy', and 'Paris Goes to New York'. she has also written 3 books about her experiences with her now 7 years old twins sisters. 'My Twins are Coming Home', 'My Twins First Birthday', and 'I'm Having Twins'. You can visit her at myfriendparis.com

Good book but below my grandchilds reading interest.

Great series. Added this one to my collection.

My daughter, who is 9, loves these books! She especially loves this one, as we are planning on going skiing this year-- and she has never been skiing before. Although she can read chapter books, she likes that these books are a short read-- and as long as she is reading, I am happy. These are really great if you are doing the same activity as the main character, Paris, with your children! I received this book for free to review. I was not compensated otherwise for my review. My

experiences and opinions are my own.

Paris Goes To Lake Tahoe continues Paris' adventures but this time she is out in the world! No longer focused on her twin sisters (though they do appear) this book is a great way to introduce kids to the adventures the great outdoors can hold. Detailing her time in and around Lake Tahoe this book has something to pique every kid's interest. From skiing to the Olympics to Reno there is something in here for everyone. Go out and get this book! Expand your Paris collection. Neither you nor your child will be disappointed.

I love this book! Since I grew up in California, going to Tahoe was a regular activity. I enjoyed seeing all the different things that Paris and her twin sisters did. I know for sure that I will definitely continue to read this book to the children I babysit for! Paris is a great, young, talented author and has created a great series for everyone to read! I am so happy I was introduced to her books and I will continue to read all the others in the series. Definitely would recommend this book!

I love this book! It reminds me of Good Night San Francisco, Tahoe-style. Tahoe is a special place for our family, as it seems to be in Paris'. We look for similar landmarks, and take part in similar activities. I love that this book captures these memories for my 2 year old son as well. He also loves pointing out different things in the detailed pictures. Great book for a gift!

A fun story about a family trip. This story is the perfect read for children who love to read but struggle with attention span. There are also lots of things to talk about in the story. It's all about exciting family fun. I highly recommend it.

If you have a trip planned to Lake Tahoe and this is the first time traveling there with your young child, this is the book for you. The fun of winter skiing as well as summer activities around the Lake are mentioned, including the Fourth of July celebrations. All of the books in this series are easy to read, colorful and the illustrations are simple, yet pleasing.
