Pocket Pies: Mini Empanadas, Pasties, Turnovers & More

Synopsis

This cookbook does for pies what cupcakes did for cake: shrink the size so they're easy to cook, freeze, serve, or pack for lunch while keeping ALL the flavor of the original. Featuring 116 recipes both savory and sweet, the delicious choices range from Goopy Chicken Pies, Argentinean Empanadas, and Spiced Apple Parcels to White Chocolate and Ginger Mousse Tarts.

Customer Reviews

Pamela Clark has a passion for food that is reflected in her role as head of a world-famous test kitchen. The team develops and tastes recipes for magazines and cookbooks. She lives in Sydney, Australia.

The pictures in this book looked so good! Can't wait to try the recipes! Great division of sections so it's easy to flip through and find what you need. There are different flavor profiles that will give anybody some great variety during their meals. I'll update once I actually make some of the recipes to tell you how they came out. The only issue I had with this book was that one of the recipes was repeated but that wasn't enough to bring it down one star.

Good book, with plenty of basic recipes for creating tasty treats. Good value

Good book for ideas on cute little munchies.

Had read the review on this book in the Washington Post and I was not disappointed. It was a great

present for a young, budding cook who loves to entertain. We had fun going through the recipes and imagining the parties.

Gift for daughter who loves to cook ... she could hardly put it down.

I ordered a mini pie-maker and this was one of the recipe books that paired up with it. It is NOT for mini pie makers. It is full of weird pies that are way more involved than what I was looking for. If you are into the fancy stuff you may like it, but if you want casual & easy, this is not your recipe book. And if you get the pie maker, don't even waste your money on this book - I sure wish I hadn't.

I bought this as a gift for my chef son who was looking for inspiration for "food we can eat out of our hands" and liked it so much I bought one for myself. Full of fun recipes, but they could have edited it a bit better as a recipe or two appeared twice under different categories. Oops.

This book has a lot of pies that look really cute but necessarily sensible to make. For instance there's a recipe in there where you make six very tiny pies that take two hours to make! Better to double your recipe and get more bang for your buck. There also typos in the book as well as a recipe that shows up twice - The editor did a poor job. But I love anything many and so I will use this book to make more mini pies.
