Customer Reviews

This cook book is very informative and gives you a background of the cooking style as well as more recipes than I'll ever have time to make. This cookbook is one of the better ones for Sous Vide recipes. This book is well laid out and contains the information I needed about the basics of Sous Vide, especially cooking temperatures.

Bad purchase on my part. Do not want to eat food cooked in a plastic bag.

Most poorly written and edited cookbook I have seen in 40+ years of reading. Overpriced at 99 cents
