## Customer Reviews

I remember when the planet Chiron was discovered almost a quarter-century ago. But no book completely analyzed the astrological meaning of this planet until we published Chiron by Barbara Hand Clow. In fact, this book is now in its second edition with further revelations and understandings based on the author's years of work with this planet. Chiron reveals the meaning of

this planet (some call it a planetoid) through the houses and signs, in aspect, and in transit. You'll also learn the mythology of Chiron so you can better use it in your astrological readings. Most important, however, is Clow's revelation that Chiron is the bridge between the inner and outer planets. The early attempts to define Chiron were the most rapid planetary research in the history of astrology. The reason for this quick action is simple: Chiron can be a healer or a killer. It rules initiation into the next level of awareness. This remarkable book has everything you need to use Chiron to enhance your astrological readings and apply that knowledge to your own life.

Barbara Hand Clow is an international lecturer and workshop teacher and writer. She majored in philosophy at Seattle University, then behavioral psychology at the University of Washington, Seattle, and then began extensive reading and study of Reichian, Freudian and Jungian Psychology. In 1969, she discovered that astrology was an exceedingly accurate diagnostic tool, and she began her study and practice of astrology. In 1982-83, she earned a Master's degree in theology and healing with Matthew Fox in Chicago, and her thesis compared Jungian psychoanalytic technique and past life regression therapy.

I bought this book, looking for some real insights into chiron. Practical application, real life interpretation. The author tries hard to push the view that chiron should be associated with the 6th house, which is natural, but not belonging or associated with sagittarius, the natural ruler of chiron. She continues to ramble on & on about mythical approaches from chiron, but in truth, real practical, to the point information is lacking. I consider it okay, for it has some interesting ideas about the esoteric body, however, it did not help me with my chiron, seeing how the book is old. She could not say in depth anything about my house position of chiron or sign seeing how chiron in pisces is something that has not yet been recorded. It was very dissapointing & when we are looking for real, straight facts about chiron for the first time, this book is a definite hands down. Like other reviews have stated, the book is down right weird and hard to follow.

This is a traditionally written astrology book with some outstanding insight on Chiron in aspect to Pluto. "...Chiron is the bridge between the inner planets ruling the personality dynamic and the outer planets ruling consciousness attunement, and Pluto is the corresponding link to the galactic." Well worth reading.

Excellent book! if you know what you are looking for.....

As an astrologer, I found Barbara's book to be a great resource for my continued quest to get to know the asteroid giant Chiron.

It is amazing that Clow was able to give such detailed and precise information about Chiron within a short time of its discovery. Chiron is the focus of my astrological studies at present, and this book has provided answers to many of the questions I've had. Although it's geared toward people with a strong background in astrology, the House, Sign, and Aspect interpretations are less technical, and would be useful to those at the beginner/intermediate level.

Interesting insights, though a bit difficult to find information if you are looking for a specific aspect. It is a searchable text, though.

The emotional body as an entity is the densest part of our perceptual vehicles. In order to move it and clear it, we must integrate it with our Higher Self/I Am Presence. The Moon, the emotional body as an entity is going to block progress until we learn to activate the power of balancing the North Node right on the midheaven. We must learn to suck in all the power of Mars - ruled South Node on the 1C, activating it with the fusion of the balance/Higher Self/(I Am Presence) - which is galactically connected because it is ruled by Libra/Nibiru - and shoot energy into a cleared emotional body/Moon in our relationships. This (sample) chart tells us that this is the direction of our healing, that it is the vehicle Chiron created in order to do the work. It also means a dense and blocked emotional body will dull kundalini response energy because the North/South Node axis is the chakra axis, with the Cancer Moon squaring it. The Planet Chiron was sighted November 1, 1977. Pluto's moon Charon was sighted in 1978. The Ferryman to the Underworld in Roman mythology is Charon. I appreciated the information that if we say yes to an experience and we receive energy, cosmic attunement and an alignment, we will move into a zone of hearing and knowing what to do and not to do at all times. Once we align ourselves a few times and we become familiar with that energy, we cannot say "no" when our Higher Self/(I Am Presence) asks us to bring in something really difficult and important. By saying no, we will probably lose our balance and our alignment forever. The benefit of going into past lives is that instead of returning to first grade each lifetime, we can bring out what we already know back into our consciousness and work from that point of awareness. But one should have a trained guide when going into past lives because this involves travel in the astral plane. Another lesson learned here is the difference between pity and

compassion. If we pity a person we could take on their karma. With true compassion we don't take on their karma. With compassion we are just responding from deep inside the heart chakra. We have nothing to fear when we respond from compassion from the heart. Rituals of the ancient days are meant to end as we move into the Age of Aquarius. The magician skills can be used for good or evil. It's up to the individual to decide. The magicians of our times are the atomic scientists, and the alchemists of our day are the chemists who are altering our genetic fabric. Complete Pluto transformation is freedom from poor habits and responses and the gift of clear will. Pluto rules the most intense clearing of our karmic Earth experience according to the overall plan of our Higher Self/(I Am Presence), which chooses what we are to do here. Before, we would leave the body and see the divine after death, now we can experience ecstasy, samadhi, rapture, bliss, while in physical form. Except for a few highly trained masters in the past, this is a new dimension open to all beings since 1977. An interesting note about healing is that no one ever heals anyone else. We are channels for the divine and learn to get out of the way. In ancient Egypt, the initiate would lighten a stone with third-eye power, and then move the stone into place. The heart chakra is blocked in males. The throat chakra is blocked in females. It is time for astrologers to teach with Chiron about how to live on Earth in harmony with wisdom and the Higher Self/(I Am Presence). Chiron rules Virgo. Chiron can be a healer or a killer. Chiron is the bridge to subtle realms. It would be wise to find an astrologer who knows how to work with Chiron, since not all of them do, as the author says that: Chiron square Moon: Channeling and drugs are dangerous for these natives. Also, Chiron opposite the Moon: The native has difficulty keeping the auric field clear and is open to astral interference - they have boundary problems. The old days of cookbook astrology are over. I think here she may be referring to those astrologers who simply try to foretell the future and do not help people "determine their sacred skill and initiate them into their quest." Many of the present day male political leaders are blocking Aquarian energy with great force. I don't know why she only mentions males, since it is well known that some female politicians are also trying to block this Aquarian energy. Zane Stein is the founder of Associates for Studying Chiron. He has a website. Perhaps you can Google it, if interested. Even if you don't understand astrology, you may still enjoy this book since she writes about a lot of esoteric information and you will also learn a lot of history about Chiron. I'll just briefly say here that Chiron is a Centaur, half-animal, half-human guide who can direct us deeply into the wounded parts of our emotional body. Chiron is the planet that rules clearing the body and releasing the deepest pain. There is not one disease that cannot be healed just by our own thoughts. I highly recommend this book.
