This book was an awesome tool in preparing for the MAT! It explains and gives you tools on how to complete the analogies as well as giving you invaluable study resources full of need to know information. I read through this book in just a few days and scored nearly 40 points higher than what I needed for graduate school acceptance! I’m confident that I could’ve scored even higher had I purchased the book sooner and prepared more.

This is a great study tool for the MAT. I love Kaplan stuff and even used their NCLEX review books for my nursing boards and passed with flying colors. Kaplan is a trusted source for providing great studying tips and examples to pass about any kind of exam.

This book has helped in my MAT prep a lot more than I expected. I have yet to take the exam, but I will be a lot more prepared because of this.

well-conceived, informative, and challenging. Excellent preparation for the rigorous demands of the MAT exam.

Great study aid. Highly recommended.

This is a great MAT review book! The book contains a ton of questions and strategies to help prepare for the test. I did very well with the help of this book, just get it far enough in advance.

There's a lot of content in it!

This really helped me to review before taking the test. I do not feel like I would have done as well without using this book. I scored much higher than needed to get into grad school.

I only had about 2 weeks to prepare for the MAT once finding out I needed it to apply for my Master's program. While that is not nearly enough time to fully prepare this book was a huge help! The practice tests in the back allowed me to become comfortable with the testing style. I just received my acceptance letter into the program!
