Good basic book.

I bought this book so my husband could make christmas presents for our kids with his new scroll saw. I couldn't get him out of his shop. He found out what kind of wood to buy, how to use his new saw, and he made the coolest puzzles - much more original than anything I've seen in stores. The kids love their puzzles and play with them all day. I can't wait to see what else he creates from this book.

I'm a beginner at scrolling. These patterns were easy and I have cut and painted several for my grandchildren. Great designs for entertaining them.

Many of the patterns are printed on two pages, so you have to line up the halves to make a blank. It's just an extra step that I've never seen before in other puzzle pattern books.

A great many high quality patterns for several types of puzzles. Also includes detailed instructions on how to make them. Very useful.

Very simple easy patterns for small children. Will save these for the summer when I need to entertain the grandkids.

Outstanding book with a huge choice of puzzles. Patterns are easy to use and can be used for all ages. Lots of patterns for children.

My first and favorite scroll saw pattern book. Great stand up puzzles, inlays, and some unusual puzzles. Spielman's patterns are excellent designs, not just drawings cut into pieces. Quite a bit of how-to included, from sawing to painting and finishing tips. Most patterns are of animals (standups include: mouse, turtle, elephant, hippo, dog, bunnys...) (inlays include: bird, fish, turtle, whale...) (unusual include: apple with dowel piece, large dowel puzzle) (one jigsaw pattern and how-tos, and a stamp puzzle). A great book for any scroll saw library.
