Customer Reviews

like: facts in lists. The price, you cant beat the price.dislike: no explanations.I found textbooks more helpful, but if you are absolutely out of time for the boards and you can memorize facts without indepth explanation then you can use this as a last minute (weeks) memorization guide. I found most useful the genetics section.

Very good review for the last week before the board. It should not be intended as a reference because of the lack of some details. Overall, it is very good.
