## **Customer Reviews**

I never thought my first review would be a cook book! I'm not a cook and have done my best to avoid it as much as possible. My husband was the cook in this house. Since he has passed, I'm trying to learn a little. The very thing that some reviewers are critical of here is the very reason I'm giving 5 stars. "Every recipe begins with a cake mix." It says that in the description and it says that

in the introduction. Everyone who bought this book should have been aware of that fact, and I think it was unfair to give a bad review based on this book being exactly what it said it was in the first place instead of what you wanted. If it's not what you want, move along and look for something else. It is, however, the reason I wanted the book, half the work is already done. My mother-in-law, who was an excellent cook, btw, always told me, never be afraid to use a box cake, all it is is accurately pre-measured and pre-mixed dry ingredients. A time saver. If it's good enough for her, it's good enough for me. This books shows how much can be done with a simple cake mix to make it special and unique. I will definitely be trying one of these for the next carry-in at church.

The cake itself is a basic very simple cake to make. It never changes. The topping is what makes the cakes different. The basic recipe plus the additional ingredients you add to it. Most of the recipes are bases on white or chocolate cake mixes but not all. This is a simple cake to make that sounds so delicious. Well written with ingredients you can get anywhere. well worth having. I can see these cakes going to pot lucks, luncheons, church suppers, etc.

I love this cookbook! It takes my favorite cake and gives me delicious variations. The recipes are easy to follow and the ingredients are everyday items. Clickable index that makes it easy to find any recipe in the book. If you love easy gooey cakes, then this is the book for you!

I remember, way back when, my father bringing home a square white box with deliciousness inside. The box was from a bakery in St. Louis, inside was Gooey Butter Cake, the best in the world! The bakery no longer exists, and my dad is eating Gooey Butter Cake somewhere I can't eat it with him, but I'm hoping this recipe book will help bring me closer to that memory of us eating that small slice of buttery goodness together once again. With recipes like Original Gooey Butter Cake, Chocolate Marble, Nutella, Maple Nut, Pecan Pie, and Coconut Cream, I'll have enough recipes to try out for a couple of years. There are a few I'll have to vary, such as Chocolate Rum Raisin, since I really detest raisins, but there are very few. What is really interesting, the base of the cake stays pretty much the same, only the flavor changes according to the flavor of the cake itself. The topping has its basic ingredients, also, with few additions added according to what cake it is. Cool, huh?

The Gooey Butter Cake Collection: 60 Quick and Easy Cake Mix Recipes Your Family Will Love! Introduction explains what a gooey butter cake is. Each one starts off with a cake mix. Each recipe has list of ingredients and filling and how to make and bake the cake. There are no pictures

and no nutritional information.

Easy, amazing recipes that I will definitely be trying very soon. In my book, anything with cream cheese as a filling is a winner. In addition, the instructions are clear and precise with no missing steps and no ingredients left out.

The best book i ever bought! I just love gooey butter cakes and this book has so many good ones!! Your have to try them all they are that good!! I just love the gooey chocolate chip butter cake! Well I have to say their are so many of my favorites! :)You'll love this book!! It's a great buy!!!

All of the recipes sound good and I plan to try them out. I never thought about cake mix recipes using these type of ingredients and best of all, they are easy to make.
