The Best Of Sewing Machine Fun For Kids: Ready, Set, Sew - 37 Projects & Activities

Synopsis

Start off your kids on a lifelong sewing adventure with 14 boredom-busting projects they'll love to make. Starting with basic handmade cards and accessories to learn their machine, they'll work their way up to challenging projects like a notebook cover and drawstring backpack. With skill-building games to play and puzzles to practice all they've learned, this updated 2nd edition from Lynda Milligan and Nancy Smith is ideal for kids.

Grade Level: 4 - 9

Customer Reviews

Here is a book that makes learning to use a sewing machine great fun even for the youngest child. With plenty of games and activities to help them get to grips with even the more complex tasks fast this book is a sure-fire winner - no wonder this is the second edition! I wish this book had been around when I learned to sew. It is filled with colorful child-friendly activities making ordinary things like identifying sewing machine parts, sewing around complex shapes, safety rules and more fun. There are lots of projects too from making greetings cards and Christmas tree decorations to wallets, appliquÃ© motifs, bags, and a soft toy burger! A panel of young stitchers aged 7-17 have suggested and tested out everything so you can be sure that it hasn't just been dreamed up by experienced adults. Techniques covered include sewing on paper as well as fabric, working with patterns, using fusible web and freezer paper, pressing, filling and looking after the machine. I

particularly like the way the book has been laid out, with good-sized print, colorful diagrams and some amusing cartoons as well as puzzles, check lists and photographs of finished items. Laid out in this way everything looks fun and do-able, not too daunting and has a purpose once made up. Another point in the book's favor is that the items to make are not "girly". This is a book a boy can enjoy using too with monsters, an owl, peace sign, Christmas shapes and more all being very unisex. A winner all round! (myshef.com)The 37 projects in this book were suggested and tested by a panel of young stitches. Techniques covered include sewing on paper as well as fabric, working with patterns, using fusible web and freezer paper, pressing, stuffing, and looking after the machine. The book includes colorful diagrams and amusing cartoons, plus puzzles, checklists, and photos of finished items. For ages 8-14. (ASG Notions, Winter 2017)

Lynda Milligan and Nancy Smith are the creators of the I'll Teach Myself series, designed to introduce sewing to a younger generation. Although they have now retired, they continue to share their passion by designing patterns and teaching classes.

This is a great book for a beginner. It explains the art of sewing in easy to understand terms. The sewing lessons are great. Step by step instructions are easy to follow. I would definitely recommend this book for a child age 8 and older.

loved this

good seller

I'm enjoying the projects in this book with my 10 year old granddaughter.

It is well written for the beginner, answers a lot of questions that they may have all in all it's a great book

Informative and fun, with lots of projects and instructions.

I was pleased with products

This was given as a gift for Christmas.
