Makers Of Modern Asia

Synopsis

The twenty-first century has been dubbed the Asian Century. Highlighting diverse thinker-politicians rather than billionaire businessmen, *Makers of Modern Asia* presents eleven leaders who theorized and organized anticolonial movements, strategized and directed military campaigns, and designed and implemented political systems.

[An] entertaining and illuminating collection of essaysâ [The chapters on Sukarno, by James Rush, and on Bhutto, by Farzana Shaikh, are exceptional. (The Economist 2014-08-30)] Biographies of 11 galvanizers of modern Asian nationalism, from Gandhi to Zulfikar Ali Bhutto, underscore the importance of politics before economicsâ | Editor Guha reminds Western readers in his introduction that to concentrate on Asiaâ™s stunning recent economic rise without studying the nationalist developments that preceded it is to ignore (again), at our great loss, the essential makeup and character of these nations. He argues that through understanding the lives of these founders, many of whomâ•Zhou Enlai and Ho Chi Minh, for exampleâ•gleaned their first political understanding from the West, we can grasp the wider political and social processes they effected in their own countries. Composed by various Western and Asian scholars and writers, these essays offer pithy highlights of each individualâ™s early life and political development, followed by delineation of how each applied his or her beliefs (for good or ill) to anti-colonial campaigns. (Kirkus Reviews

2014-04-02)A much-needed collectionâ |Compared to many biographies of Western political leaders, these stories lack the commercial drama and overheated sensationalism of the bestselling variety, but that characteristic may be a welcome respite for many readers. (Publishers Weekly 2014-06-30)It is all too easy to forget the volcanic history that lies just beneath Asia's recent economic boom. Makers of Modern Asia reminds us of the immediacy of this history by bringing together biographies of eleven national leaders of the 20th century whose ruthless pursuit of modernity and power must continue to shape Asia's course in the future. (Timothy Brook, author of Mr. Selden's Map of China) --This text refers to the Hardcover edition.
