ISBN-10: 1579248934

ISBN-13: 978-1579248932

Product Dimensions: 1.2 x 10 x 10.5 inches

Shipping Weight: 4 pounds

Average Customer Review: 3.4 out of 5 stars 7 customer reviews

Best Sellers Rank: #255,061 in Books (See Top 100 in Books) #63 in [Books > Science & Math > Mathematics > Reference](#) #3402 in [Books > Textbooks > Science & Mathematics > Mathematics](#)

## Customer Reviews

Prepare your student for making financial decisions with instruction about credit card charges, taxes, interest on loans and savings, personal banking, and costs of transportation, food, clothing, ut

The review is strictly for the "blurb". Believe the other reviews!! There is only one book though the description says 2 books. Argh!

Books in great condition as stated

Books in great condition and as described! Took awhile to get here, but were just what I was looking for!

This product is only the second book of a set that should contain two separate teacher's editions. I do not recommend it.

Both books were exactly as described and came on time. I am very happy with my purchase. I would use this vendor again.

Received the edition in a relatively short time, however the title on both the ad and the packing list stated there were two books in the bold title. When I received it there was only one book and in fine print under "Comments" it stated "one book only". I guess I've learned to read "everything"! This is a Teacher's edition book for a Math class for my homeschooled student; hopefully we can find the second book elsewhere before she gets to that part of her studies.

The Bob Jones Consumer Math curriculum does an excellent job at teaching a full array of real life financial topics, all from a conservative, Christian perspective. Great as a year-long curriculum or on spot topics. Homeschooling families can easily customize the extensive curriculum to meet individual credit needs. Ordering on will save you around half off the publisher's price (which is a great financial lesson in itself!)
