## Customer Reviews

The basics of horses are briefly covered along with well-chosen photos. But the sentence structure could be varied a little more to avoid hum-drum. Too many beginning pages are promotional and introduction matter, leaving this a short book. Still, it presents a good overview of breeding and taming horses, wild horses, horses for various purposes such as quarter horse, thoroughbreds, etc. It should appeal to preschool and up to second graders.

perfect book for children

granddaughter loved it

Great prose and just gorgeous photos! Nice way to introduce kids to horses. And this coming from a horse owner! How about one of these covering breeds? \*crossing fingers and grinning\*
