For more than 20 years, John Green has created popular Dover coloring books. He specializes in realistic drawings of people, animals, and places, and his recent titles range from Life in Old Japan to Dogs to Paint or Color.

Got as a gift with the movie flicka for an 11 year old who rides horses and wants to be a veterinarian. My daughters friend and her mom both really liked it. She likes it had a lot of facts and info she will need to learn if she wants to be a veterinarian working with horses. I already bought her a bryer horse book for her bday and she loved it. It was hard to find something unique yet pleasing that measured up to that one!

I bought it because I bought my first horse. i check this out every few days so I can master it a bit, for when I need to know some things or if I ever have to talk to the vet, ferrier, or even the folks at the barn where he is staying. Its great to have it on the shelf for reference.

Really good coloring book and very detailed. My daughter is only 7 but as a horse lover she really liked seeing the "inside" of the horses.

Such a cool little coloring book! Really helps with my equine anatomy at school.

great little coloring book with high quality anatomical drawings

Perfectly nerdy and educational! I love it!

Fun way to learn and relax. Great for horse lovers especially those with a vet or physiology interest.

An Awesome little book. Worth it, I recomment
