Fundamental Managerial Accounting Concepts

Synopsis

Fundamental Managerial Accounting Concepts, 8e by Edmonds/Edmonds/Tsay/Olds focuses on helping students truly understand the underlying principles of accounting, not just memorizing content. Pedagogical innovations like the unique Horizontal Financial Statements Model and a multiple accounting cycle approach that demonstrates the impact of related events over a series of accounting cycles, ensure students understand the true application of accounting in business. The text is organized in a coherent, integrative framework that enables students to build knowledge in stepwise fashion, focusing on real-world examples, international issues, and "A Look Back" and "A Look Forward" to keep content current and relevant. Author-created Video Lectures are the ideal complement to any face-to-face, online or flipped classroom.
