In Six Days: Why Fifty Scientists Choose To Believe In Creation

Synopsis

Why would any educated scientist with a PhD advocate a literal interpretation of the six days of creation? Why, indeed, when only one in three Americans believes "the Bible is the actual word of God and is to be taken literally, word for word" according to a recent Gallup poll. Science can neither prove nor disprove evolution any more than it can creation. Certainly there are no human eyewitness accounts of either. However, certain factors are present today which are capable of swaying one's beliefs one way or the other. In this book are the testimonies of fifty men and women holding doctorates in a wide range of scientific fields who have been convicted by the evidence to believe in a literal six-day creation. For example, meet: The geneticist who concludes that there must have been 150 billion forerunners of "modern man" in order for the natural selection required by evolution to have taken place in the development of man. The evidence for such vast numbers of "prehistoric man" is in dire shortage. The orthodontist who discovered that European museum fossils of ancient man have been tampered with to adhere to evolution theories. The geologist who studied under the late Stephen Jay Gould and literally cut the Bible to pieces before totally rejecting evolution. All fifty of these scientists, through faith and scientific fact, have come to the conclusion that God's Word is true and everything had its origin not so very long ago, in the beginning, In Six Days.

Book Information

Paperback: 384 pages

Publisher: Master Books (January 1, 2001)

Language: English

ISBN-10: 0890513414

ISBN-13: 978-0890513415

Product Dimensions: 5.5 x 0.9 x 8.5 inches

Customer Reviews

This book is a great "weapon" in the hands of any creationist or Christian... --Roger Howerton, Acquisitions Editor, Master Books

Editor John Ashton, who compiled the 50 essays, is a fellow of the Royal Australian Chemical Institute and specializes in food industry research. He and his wife reside in Sydney, Australia.

Smart people explaining smart things to dummies, thank you.

great approach to the creation story from a scientific approach.

Great thx!

Excellent!The scientist provide scientific points of view why creation was in 6 days and uncovers many of the evolutionist discrepancies and misleading comments.This will help you be prepared for your college & high school age students questions in reference to creation and science.

In six days God man the heavens and the earth.

It's been awhile since I read this. I would use it as a reference book on the creation story as understood by Christians.

I finally have knowledge to dispute the beliefs of nonbelievers!

Eye opening! W?ho knew that Science ONLY supports Intelligent Design/Creation?
