Customer Reviews

"Known for its four-color maps, photos and illustrations, the [DK] Eyewitness Guides are extremely user-friendly for travelers who want their information delivered in a concise, visual way." â” Chicago Tribune
"The best option for Color photos, maps, and diagrams bring the place to life." â” The Philadelphia Inquirer

We got the version that was just released, it this guide covered everything we needed for an 8 day trip through Portugal. We used this for our trip this July to Lisbon, Sintra, Porto and the Douro Valley, and the southern beaches (a lot to cover in 8 days). The historical background and highlights were just enough for us to get a flavor of what we wanted (and didn't want) to see in each place. The photos were also helpful. Overall a pretty comprehensive guide which I will happily loan to family and friends, as we've recommended this trip to everyone! We did not use it for the hotel recommendations as I had already booked all of those reservations using Trip Advisor, which has more live reviews. I agree with some of the other reviewers, however, that this book is a bit too heavy to carry around in a day pack all day!

A good guide to Portugal, always a lot of good details and suggestions. I received recommendations from locals and a friend who is from Lisbon, but the books was a nice accompaniment to their recommendations.

Eyewitness books are they best for suggestions on everything. We don't travel w/o one.

This is a great guide to Portugal with many beautiful photos!

I am a visual learner, so I'm a crazy-enthusiastic fan of DK Eyewitness Travel Guides. And this book lived up to their excellent reputation; I virtually read it cover to cover. Moreover, because of it, we had an amazing trip to Portugal. Thanks DK!

As with all DK Eyewitness Travel Guides it is informative and the pictures make fun to read.

One of the best things about this book is the fold out map at the back which is both sturdy and as

you read about the various locales in Portugal there is the quick and easy reference to a comprehensive map. Beats unfolding the Michelin driving map which is the size of our dining room table ! This book is well organized too.

Beautiful history, ideas and photos!
