Historian and novelist Morgan Llywelyn was born in New York City, but after the death of her husband and parents in 1985 returned to Ireland to take up citizenship in the land of her grandparents and make her permanent home there. After making the shortlist for the United States Olympic Team in Dressage in 1975, but not making the team itself, she turned to writing historical novels exploring her Celtic roots. The most successful of these was *Lion of Ireland - The Legend of Brian Boru*, which was published in 1980 and has sold into the millions of copies. She received the Novel of the Year Award from the National League of American Penwomen for her novel *The Horse Goddess* as well as the Woman of the Year Award from the Irish-American Heritage Committee for *Bard: The Odyssey of the Irish*. The latter award was presented to her by Ed Koch, then-mayor of New York City. Morgan is also the author of , the story of Grace O'Malley, told partly through letters from Granuaile to her beloved son. It is a thrilling tale of adventure that brings this unorthodox and inspiring historical figure to life.

What I have loved about Morgan's books over the 25 years I have been reading them is that her research into the history AND daily lives is impeccable. You see our people less as how we want them to be and MORE as they were. You come to understand that is is not as simple as neat little labels, and easy to understand phyla. Morgan helps one to understand culture and not stereotypes.

I've enjoyed most all of Morgan Llywelyn's books. This one however, was some insightful history surrounded by a thin story. Pleasant enough to keep me reading to the end, but it just didn't pack the emotional excitement of the other volumes produced by this author. The story of a young boy's circumstantial meeting with smuggler's, the discovery of family relations (oops- close to a spoiler, there!) and the father's tenous financial situation all seemed a contrived way of spoon feeding the reader various historical tid-bits about life at the time. Not bad, but I've read better.

My only complaint is that ended abruptly. Otherwise, I enjoyed being faced with the moral dilemmas I related to and learned from. Always well written by Llyewellan and felt completely immersed in time period and culture.

I chose this rating because I enjoy so much the story telling of Morgan LLYWELYN. She is a master story teller of Irish lore. A good easy read for wintry nights.

Ms Llywelyn has a wonderful insight into making Irish History come to life in her novels. While reading I picture in my mind scenes from her books. I'm instantly engrossed.

Since this was written by a favorite author, I decided to give it a try. It is a good book and I enjoyed it but it is really written for a young boy's entertainment. I will pass it along to my grandson when he comes of age.

These used books, costing next to nothing, are the PERFECT gift for any incarcerated person you might know They will be devoured by an ever-so-grateful recipient, as it carries them outside the walls and into a world of imagination and fun. Next time you're in touch with that person, ask him/her what kinds of books they'd enjoy reading, then spend a coupla bucks - it will make a world of difference for them, and you'll feel good too. Don't let these books just sit on a shelf somewhere, when they can do so much good. Most jails and prisons will not accept books from you, only from legitimate booksellers direct, so please consider doing something like this, whenever you can afford to spend around 5 bucks total!

I enjoyed this tremendously but it was too short
