Customer Reviews

This book shares an enormous amount of information on the history of crystals, healing methods used, colors of crystals and the properties of crystals. Example: A white crystal is used for reflecting the different energies around them. The most important component of this book is the knowledge that crystals not only work on a physical level but also on an emotional and mental level. The author then shares insight into 50 different crystals and what each crystal is used for. I highly recommend this book for individuals seeking more information on healing with crystals

I was disappointed in this 52-page book priced at \$13.38. The book is a more a pamphlet without pictures that should have been priced less than \$10. I think this pamphlet/book is more for a beginner who might find the read helpful. However, for the price there are so many more books options and with pictures in color. The only compensation for me was that I received a free Kindle version with the book purchase that helped to ease my level of disappointment.

Small book. No pictures. Looks like someone printed it on their computer

I was looking for more of an picture based book and this isn't it. The pages are like dry and scratchy with definition examples. Very small thin book.

Amazing book to date! i have read a lot of books that concerns healing but never did I hear about crystal healing as an effective way to heal some illnesses. I didn't believe it at first but I was then enlightened when I started reading this book. It has everything I needed to learn about.

My first time to have this kind of book, but glad to have it because it assist me in learning about crystals, its kind and how to apply them in our daily lives .I've come to know also the crystals ability

to help me physically,spiritually and even on emotional ailments.Since crystals have been used thousands of years still they are part of the modern age,Glad to know the power of crystals!

I have never tried crystal healing before and I think it is very interesting. I appreciate that it has some simple and easy to understand discussions that are perfect for beginners. I just wish that there are more content in the book.

This is the most detailed guide that I've read about crystal healing. It contains just about everything you would like to know about energy, power and the mysteries about crystals. It even has a list of stones and crystals for your reference. So find out how to start your healing crystal collection to increase good vibes and learn the different healing properties that you can enjoy.
