# Textiles For Residential And Commercial Interiors 3rd Edition

## Synopsis

Devoted entirely to textiles for interiors, *Textiles for Residential and Commercial Interiors*, 3rd Edition, focuses on the most current fiber and fabric information including new fiber technology and nanofibers, the role of the interior designer in selecting textiles, and the environmental impact of textiles. The book includes in-depth coverage of household and institutional textiles, in addition to commercial and residential textiles for upholstered furniture, windows, walls, and floor coverings. Full-color line drawings and photographs illustrate fibers, yarns, fabrics, manufacturing equipment, coloring, finishings, and end products. *Textiles for Residential and Commercial Interiors* provides students with all of the technical information, aesthetic fundamentals, and practical knowledge they need to select textiles for every type of residential and commercial interior.

## Customer Reviews

Sharon S. Coleman, Dana Miller and Nancy Oxford are based at Middle Tennessee State University. Amy Wilbanks is based at Textile Fabric Consultants, Inc.

Thanks

I needed this book for an interior design class on textiles. It is loaded with very detailed and useful information, however I found it too dense and a little too filled with unnecessary information. I will likely use this as a reference book going forward, rather than the classroom textbook it was meant

to be.

I purchased this book for school while I majored in Interior Design. Unlike normal text books, it is so interesting and filled with facts necessary to know for a career in this field!

Filled with good info for interior design class I am taking.

The book is used and damaged. It has highlighting throughout it, with front and back covers damaged along with binding. Would not recommend buying it.

Shipped fast and was true to what the description said. Bought it at a great price to considering this is a expensive book

It was in great conditions

Arrived in great condition.
