Customer Reviews

I read The Dirty Parts Of The Bible a few months back and it's now in my favorites list on my Kindle. This is not a sequel to that book, but a journal from the character Craw. Inside is a collection of poems, quotes, inspirational or funny words and artwork -- some are supposed to be from Craw's mind, others from famous poets he may have found inspiring. I thought it was a beautiful compilation myself. Just an FYI to readers though -- some of the poems are about sex, drinking or

Craw's appreciation for healthy bowels (to put it gently) -- this fits in with how the character of Craw was written and isn't presented in a crude way, but I figured I would mention it for any readers that prefer to avoid such topics in their reading. A couple other things that caught my attention: 1) some of the artwork / graphics shows up a little grainy on the Kindle Fire HD and 2) the "both read the Bible day and night" bit in the poem Sects is from a William Blake quote but is uncredited in Book of Craw.

The book of Craw is a fine collection of colloquialisms, but I really wanted more from this story.. To Sam Torode .. if you read this, there are more "hobo Tales" waiting to be told by Craw.. He is a wise man who deserves a voice.. how about his relationship with Red (Skelton) and the multitude of other characters he met on the road? Craw's view of Tobias and Sarah.. did he keep track of them without them knowing ?? I would love to know more about him and what came before Tobias received this testament.. There is always another story.. just around the bend....

I finished the dirty parts of the Bible and caught this suggestion. Written in the voice of Craw , it is joyful ! If you liked Dirty Parts ,you owe it to yourself to follow up with this short collection.

It was something I wouldn't normally read but once started they had me. I had to read another in the series.

Good book and an essential addition if you've ever read The Dirty Parts of the Bible. My single complaint was it did not include the spectral army investing Prague, or any similar works.

It was a gift. The parts selected in the book were ok. That's why I ordered the companion

Different. In many ways. Enjoyable, though.

Loved it. Full of down to earth wisdom fun, and nostalgia. Will keep it around for reverence.
