Format: Kindle Edition | Verified Purchase I really find these series fascinating because my nephew who just graduated from his kinder year is so into these animal habitat thing and he's reading All about wolves as his first choice. It really amazes me to see that there is a book dedicated to each animal alone and for me, I think this will really help children get to know their favourite animal more. 5.0 out of 5 stars Fascinating! February 22, 2014 By Oleg Berenzon Format: Kindle Edition | Verified Purchase This book is such a great adventure for children into wild world! The author of this book provides incredible true facts (that many people may not be aware of), fascinating myths and amazing real life photos of these animals. Well written, easy to understand for children. I recommend this book for all children as well as all animal lovers. Great work! Thanks to the author! 5.0 out of 5 stars Great book for kids who love wolves or any animals! February 21, 2014 By Mateo Format: Kindle Edition | Verified Purchase This is book is one of the best children's books I've ever bought on Kindle! It has lots of pictures and tons of great facts that my child just loved. Now she wants me to get the other books in this series, and I'm sure I probably will! Customer Reviews

I bought the author's book on Monkeys and Apes first-- I was very Very impressed. (the title may be a bit different))I have bought several other of her Kindle books.What makes them so good ?They are pretty comprehensiveThis book coversGray WolfRed WolfEthiopian WolfEastern Timber WolfArtic WolfIndian WolfHimalayan WolfMexican WolfEach get 3-5 pages of informative text and several small photos-- these photos upscale well on my iPad Kindle ReaderYou see adults and often females with young or young Cubs playing.The photos are helpful for what they show, but also for sorting out one wolf species from anotherThe author has got the right blend of information and pictures-- all expressed in a winsome style.Would be one of the very best children's texts I have seen (only have Kindle texts)Who is this book forYounger children who visit Zoos or have an interest in wolves may find it interesting. Some of the detail may go over there heads.Older children and young teens should find it interesting. Adults who need to brush on there wolves may well find it worthwhile.Highly recommended.

Downloaded this book to share with my little niece whom I've been babysitting and she loved it! Great book, very informative and lots of lovely pictures. She definitely enjoyed learning about wolves with this fun book :)

Just really find wolves interesting. There is no n know case of Wolfe's killing humans. Their like a four legged buzzards. Cleaning up the dead and culling the weak. From beards, like deer,bison, etc. Good for the ecology
