The Mystery Of Mia

Synopsis

Mia, the beloved and only daughter of a military doctor, doted upon by her two elder brothers, shocks everyone when she tries to kill herself. It takes a passionate kiss from her neighbor, the handsome rogue Italian Damien to bring Mia back to her senses. While on a business trip, Mia is shot at, and one bullet finds its mark, throwing open a Pandora's box, threatening to reveal sinister secrets concerning Mia's role in the disappearance of Caroline, Damien's long-lost sister. Mia survives, but elopes before questions are posed. Things begin to slide downhill after that, and one more piece of the puzzle is found in the form of a letter asking for help written by Caroline. What is the connection between the disappearance of the two girls? Will Damien be able to find and rescue the two girls before it is too late? Will Mia give him a chance?

Shweta Kulkarni is a dreamer who spends all her free time penning stories. Growing up as an only child of working parents strengthened her vivid imagination and a passion to read. She lives in the warm southern US, where she spends her days, (and often nights too) equipped with a strong cup of coffee, sitting before the computer, typing away merrily. When she's not playing a role, she can be found staring into space, thinking.
