A reliable guide is essential when venturing off into the 948,596 square kilometers that make up British Columbia, and Moon's Handbook is the guide of choice. Covering recreation, accommodations, food, transportation, and sights for Southwestern, Central, and Northern British Columbia, Vancouver and Vancouver Island, plus the Rocky Mountains, Okanagan Valley, and the Kootenays, it's an exceptionally valuable tome of information. Whether you're looking for a sophisticated big city Vancouver holiday, going for high tea in Victoria, viewing Haida totem poles on the Queen Charlotte Islands, hiking the West Coast Trail, or canoeing the lakes in the Cariboo Mountains, the Moon Handbook is up-to-date and on the money. --Stephanie Gold

There is a perception out there that BC consists of Vancouver, Victoria and some other bits. This is the book about the "other bits." I took a copy with me on a recent road trip from Prince Rupert to Vancouver, and it more than paid me back with useful information (not the least of which was the names of towns; apparently BC Highways doesn't believe in posting signs telling you where you are). Lots of history, which is always great, besides the usual road info. Take it, 'cause without it,

you'll soon be on that unique BC mountain highway feature, the Runaway Lane!

The book was a birthday present to me two months before a trip to Vancouver to visit my daughter. The Vancouver downtown map showed me the nearest hotel to her address and the prices quoted for hotels were a good guide. She has been in Canada for eight months, but did not know of a restaurant (Roosters Quarters) recommended in Denman Street which is 10 minutes walk away. This book saved me money, was a pleasure to read, and made the many other guides I looked at in the library totally redundant.
