I wasn't sure about this book based on the title alone so we checked this book out of the library before purchasing it. This book has become my daughter's favorite book. I purchased it so we had it at home and she reads it all the time. She is learning to read and this is definitely one of the best first books to read. The words repeat throughout the book and there are only a few words per page.

As both a parent and educator, I love the Step Into Reading books! They always have the kids favorite characters and make them fun to read. Since all of my children could speak, I have had them read to me using only the pictures to help them make up a story! Level 1 is great for that or the new reader. They help build confidence! You know when your child sleeps with their favorite book, it was a huge win! Of course, it helps we are huge CARS fans as well!

I got this for my son's 2nd birthday. It has just the right number of words per page to hold his attention. It's a simple book, but he likes it, and by a couple of months after his birthday, he was remembering the words and he could read it to me or himself and he was pretty accurate. I think it makes him feel good about himself that he can memorize the words. I would highly recommend this for anyone with a little boy that likes Lightning McQueen.

I get books for kids parties instead of a bday card way more fun :) and much longer life. also similar costs.

Grandson loved it.

It's okay. Not at all a Cars story. More like an opposites book using screenshots from the movie. My 3 year old liked it well enough but I was expecting a story with a plot. Meh.

Thank you!

Great!!!!!!
