Customer Reviews

I'm new to the whole Paleo craze, but I also love Asian food - so getting this book was a no brainer. I like how well organized and laid out it is, so easy to follow and be able to judge my time for recipes. Not to mention that the 4 recipes that I've tried out so far are very tasty. Don't miss grabbing this one to keep you on the road to better health.

My girlfriend and I love Asian Cuisine and we both try to stick close to a Paleo diet when possible so this book purchase was a no-brainer. The author does a nice job of laying out what a Paleo diet is and how the Asian Paleo differs. Essentially, Asian cuisine is transformed into Paleo form using ingredients common to the Asian diet. In this book you will find a number of tasty Asian inspired

Paleo recipes for everything from beef to seafood to simply vegetables. The author even included a few nice Asian Paleo Beverages for those interested in antioxidants, detoxing your body, boosting energy and helping with other medical conditions. I especially liked the section on creating your own Asian Paleo dishes with its list of common recipe substitutions. Essentially, if you like Asian dishes and are on a Paleo diet, this book is for you!

added this to my healthy eating library that I am building once at ideal body weight

Returned this one, no pictures.

Very disappointed with this book.

Should be a zero because this author knows NOTHING about nutrition. She says 5 grms fat is the dividing line for lean proteins and then says "Ground beef, pork loin, lamb loin, lamb foreshanks, veal cutlets, blade are a few examples of lean meat." Not true. Grass fed Beef Strip steak, beef innards like spleen, pancreas, tripe, chopped or chipped beef, bison, goat, caribou, deer, elk, breast of chicken and turkey, white fish, crab, and shrimp are about the only meats or animal protein 3 ounce servings that meet that criteria. She also claims adults need 80 grams of protein per day which is NOT true even for pregnant women! She explains Paleo as low in sugar and inflammation causing fats and other foods then sticks in honey which is nothing but sugar and bacon, tallow and lard! She says Pork has no vitamins Again, wrong on so many levels. She really needs to stop handing out nutritional content info because she hasn't a clue as to what she is saying in terms of correctness or accuracy. She claims it is full of saturated fat and yet it has more monounsaturated fats than saturated! She absolutely NEVER knows what she's talking about in terms of accuracy. The mistakes in her recipes typing is bad enough. She reminds one that wheat, rice and all purpose flour are not allowed but forgets that high starch tapioca flour is also NOT okay to use either. And on and on it goes, mistake after mistake after mistake.

I didn't know that Asian paleo recipes are these tasty and delicious. It took me a short time to prepare the recipes and I also had easy time following the instructions. The book is well structured and I would definitely recommend this book.
