Virginia Axline (1911-1988) was a pioneer of play therapy for children.

For anyone interested in children. There is no one quite like Axline. Using the theories of Rogers, Ainsworth and Bowlby Axline has devised a set of therapy principals that will live forever. If your child needs a therapist your questions should begin with....what do you think about Axline?

I had a copy of the first printing of this book in the mid fifties....the hard cover dark green book. It was an invaluable resource in my first years of teaching young children. My book was lost in years of moving around. I would have liked to see this book larger and with "bigger print".

every teacher should be required to read this book

Love this book!

I've only read a few chapters so far, but already feel miles ahead of where I was when I started reading the book. Fantastic!

A great read of encouragement for a child that appears to be slower than the norm

Great book!

Exactly what I was looking for- practical with lots of examples
