Age Range: 7 - 10 years

Grade Level: 2 - 5

Customer Reviews

The book provides lots of information on shark facts, habitats, & environments. It's very educational and well worth the read. I have learned things about sharks that I have never known. The book is fairly easy to understand, but there are some words that would be a challenge f/younger reads. It does come w/3D glasses, but I don't notice much of a difference in the graphics when I'm wearing the glasses & when I'm not.

I purchased this for my grandson and he really enjoyed it.

This was sent in fair time, but a major disappointment, there were no 3-d glasses and it was not as I thought it would be, good for kids though!!

Loved!

This is a great book for my son. He loves sharks and the 3D excitement makes it even more fun to read.

Cool Book. 3-D effects are great. 6 year old complained glasses would not fit & are only good if you use both hands to hold them over your eyes, this was true. Good overall.

Great kid's book

Great
